TRIBAL ACCREDITATION DISCUSSION: Meeting Flip Chart Notes

1973 Goals of AIHEC (articulated by David Gipp, UTTC)
Financial Development – Stable Funding
Curriculum Development
Human Resources
Research
Accreditation (Agency) (Modified 75)

Issues Regarding Creation of a Tribal Accrediting Entity:
- Could this be a way to interact with Native Serving Institutions?
- WINHEC:
  - Envisions what “we” are supposed to be like
  - What we offer the WINHEC process stands on our standards
- Marketing
- Accreditation Council
- Reclaiming Who We Are
- Need to Develop Next Steps…

Discussion:
- AIHEC accrediting “body”
- Institutional commitment: Presidents must lead/staff this or it will not happen
- Legislation pending (ESEA) and Resolutions (NIEA, NCAI)
- Incremental steps – through our own body
- Focus on how we educate students from a tribal standard of identity, citizenship, culture

WINHEC – University of the world –
Created process that supported community

AIHEC having our own is important
- Our knowledge of our government is also part of our experience
- Have a need for tribal accreditation also including prenatal, birth, and beyond
- How can we support this in our homes
- Can be a way/path to reunite tribal nations

Change the Existing Process
1. WINHEC is/could be a forum for this
2. Alternatively, through AIHEC, form our own body that also serves as a transition (incremental)
3. Participate in Multiple Accrediting Processes:
   - Holistic view – spiritual, cultural, language, science match, etc is all together
   - Needs to be at all levels of education
   - Flexible, so it works for each tribe
Our standards should be high(er) – attaining AIHEC accreditation is “above and beyond.”

Tasks:
1. UTTC legal research
2. Articulate purpose of an AIHEC accreditation effort. Potential purposes:
   o What do we want our graduates to look like?
   o Intangibles, values, prioritize
3. Look at how we are organized – What do our ancestors want?
4. What are potential barriers
5. Keep focus on language and culture (address, curb, regain, strengthen)
6. Use inquiry process to address framework
