

Kansas's Tribal College:

Haskell Indian Nations U.

Haskell Indian Nations University

The Congressional Investment in the ED-Strengthening TCUs Program will be cut in *half* beginning in FY2020. Action is needed now to:

- Permanently Authorize and Fund Part F
- Support equitable funding for Part A

The Strengthening Institutions program (HEA Title III, Parts A and F) provides essential formula based aid to TCUs. Together, Parts A and F help provide TCUs the resources to help tribes and rural communities build a skilled Native workforce, support underserved students through wraparound services, modernize fiscal management systems, and build safer 21st century campuses.

Without Congressional action, this vital program will expire this year resulting in catastrophic losses to TCUs, their communities, and their states.

Your Investment is Paying Off:

- **Renovation:** Student housing, academic classroom, and TRIO computer lab updates
- **Infrastructure:** Upgraded or replaced the existing end-switches, routers, and servers providing the backbone for the campus network; Ethernet cabling to the 573 dorm rooms; CAMS-Student Information System; Microsoft Volume Licensing
- **Library Services:** Research and journal databases subscriptions
- **Student Support:** Funding of four student support staff over the past nine years

The Title III Investment in Kansas

Over the past 10 years, **\$25.8 million** has come into Kansas through the TCU Title III program. If Title III Part F ends, the state will lose **\$1.5 million per year!**

	Title III, Part A	Title III, Part F
2010	\$1,645,255	\$1,683,666
2011	\$1,404,608	\$1,594,778
2012	\$1,192,493	\$1,421,712
2013	\$1,194,178	\$1,447,204
2014	\$1,213,487	\$1,368,133
2015	\$1,238,600	\$1,366,736
2016	\$1,469,774	\$1,492,258
2017	\$1,486,306	\$1,507,350
2018	\$1,683,666	\$1,473,915
TOTAL:	\$12,528,367	\$13,355,752

Investing in Students & Their Future

Kayla Davis graduated from Haskell Indian Nations University with a bachelor's degree in environmental science. She earned academic and athletic honors. Haskell's environmental science program provided Kayla with numerous opportunities, such as internships to strengthen and broaden a network of support and resources. Her time at Haskell continues to influence her current work with the Indian Health Services. She works in Shawnee, OK serving the Kickapoo, Iowa, Sac and Fox, and Citizen Potawatomi Nations as an environmental health officer. She has built relationships on trust and states that Haskell is the reason she can provide better care and services to the tribal nations she serves. Kayla's successes would not be possible without Title III funding for Tribal Colleges and Universities!
